Words from the Product Designer

Hi friends ,

This is Mason from Glocusent, and it's always a pleasure to connect with you through our thoughtfully designed products.

At Glocusent, we've been dedicated to innovating within the LED light industry for over 3 years, with a special focus on creating the perfect lighting solutions for readers, artists, and creatives alike. Today, I'm excited to introduce an upgraded addition to our product line that's designed to elevate your nighttime routines and creative sessions.

Our upgraded 72 Led Clip On Light offers a gentle glow that's easy on the eyes and perfect for creating a cozy atmosphere. With 72 evenly distributed LED beads, this light ensures a uniform brightness that fills your space without harsh spots. The thoughtful design includes a controller with the LED screen for effortless adjustments and an extra 1700K night light. Besides, when you turn on the light, it gradually brightens or dims, allowing your eyes to comfortably adapt to the environment.

What sets this light apart is its unique design—the surrounding ring stays dark, preventing direct exposure to your eyes, making it the ideal companion for late-night reading or working on detailed projects. It's more than just a night light; it's an experience crafted to support your comfort and creativity.

We're thrilled to see how you'll incorporate this innovative light into your routines. Whether it's illuminating your favorite book, guiding you through artistic endeavors, or simply setting the perfect ambiance, we believe this new addition will become an essential part of your daily life.

Thank you for being part of our journey.

Mason

Instruction

Turn on

  → Press the Button to Turn On or Off

Brightness Level

 → Turn Up the Brightness Level

 → Turn Down the Brightness Level

Or long press for stepless brightness adjusting

Color Temperature

Short Press to Adjust Color Temperatures

Or long press for stepless color temperature adjusting.

Timer Function

Choose from two timer settings

Once the main light is on, briefly press the timer button to select your desired duration, and the corresponding indicator light will turn on.

Sleep Aid Feature

With the lamp on, select your desired timer duration

To activate sleep aid mode, press and hold the timer/sleep aid button for **2 seconds** after turning on the timer. The sleep aid icon will appear on the display screen.

To turn off sleep aid mode, press and hold the button again for **2 seconds**, and the icon will disappear.

Precautions

- Please do not use a charger exceeding 5V.
High voltage may cause damage.
- Please use the original plug provided, or a third-party certified plug. Using a non-certified plug may result in unstable voltage and flickering light.
- When using this product, it is advised not to cover the lamp with materials such as cloth.
- Do not expose the lamp head to fire under any circumstances when using this product.
- Note: The power indicator light will turn green when the clamp light is connected with the power.

Disposal: When you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

Features

- **Main Light:** The main light features a gradual dimming/brightening mode (also known as “fade-in/-fade-out” mode), which ensures smoother transitions for your eyes. This feature helps protect your vision and enhances overall comfort.
- **Night Light:** The night light provides safe nighttime navigation, creates a cozy ambiance, and helps improve sleep quality, all while being energy-efficient and decorative. It has a simple on/off function and does not allow adjustments for brightness, color temperature, or timer/sleep aid settings.
- The main light and night light switches operate independently and do not interfere with each other.

3 color temperatures:

Warm Mode 2700K—Blue-light-blocking promotes the production of melatonin after reading and before sleep.

Mild Mode 4000K—Soft and gentle light for general readings.

Natural Mode 6000K—Restore the noon light for the best concentration.

- 5 brightness levels, with the brightest level up to 400lm.
- Smart lamp head: Glocusent designers carefully designed the lamp head with lots of effort to make sure the lighting source is distributed evenly from the LED beads. Such a design also ensures that the light can be soft and cozy enough to better avoid your eye strain.
- Timer function: Choose between 30-minute and 60-minute timers to remind you to take breaks while reading. The unique sleep aid feature simulates a sunset by gradually dimming the light, helping you drift off to sleep.
- The sturdy clamp can be opened to a maximum of 2.36 inches in width, which allows for use for all kinds of thick surfaces.
- The gooseneck is able to be bent at 360 degrees with memory function, which means it will not bounce back when you fix the neck on your comfortable positions.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles; glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that glory.

Focus: Our team at Glocusent is focused on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
