Words From the Product Designer

Hi Bookworms,

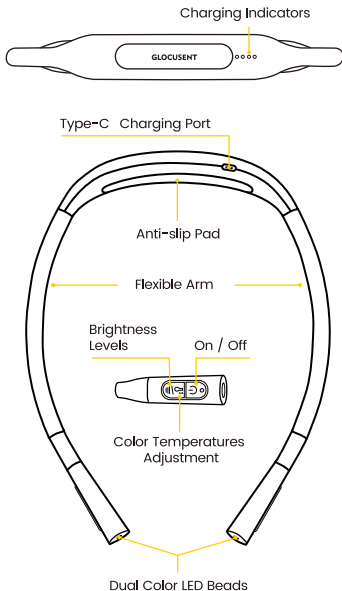

This is Mason from Glocusent. We're thrilled to share that our classic LED Neck Reading Light has received a thoughtful upgrade—once again inspired by your feedback.

Many users mentioned that the previous version felt too bulky or uncomfortable to wear. In response, we've redesigned the body to reduce weight by 20% and slimmed down the neck section for a lighter, more ergonomic fit. We also expanded the anti-slip pad area, helping the light stay securely in place while you move.

Beyond comfort, we've enhanced functionality as well. The battery capacity is now 1200mAh, offering up to 12 hours of use at the highest brightness. Plus, the light now features 5 brightness levels and stepless color temperature adjustment from 1800K to 6000K, giving you precise control for any reading environment.

As always, thank you for helping us grow. We hope this new version brings you even more comfort and clarity in every moment.

Warmly,
Mason

Independent On/Off For Each Head

Precautions

- Use a 5V output wall plug to make sure the neck light is working at its full capacity.
- Please avoid placing it in an extreme temperature environment (either too hot or too cold).
- Please charge it at least once every 6 months to maintain the battery's lifespan.
- Disposal: When you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

How to Charge the Light

1. Simply plug the provided USB-C cable into the charging port in the neck, and connect it with a 5V power charger.
2. It takes about 3 hours to fully charge the LED neck light.
3. Please fully charge the product before first use.

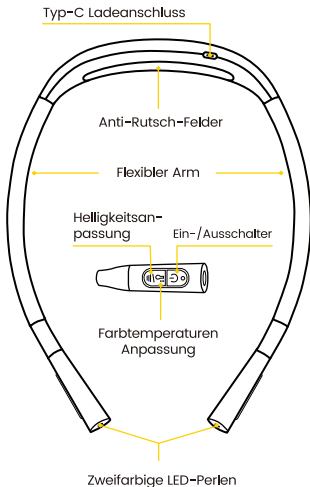

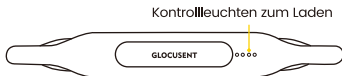

Note: The green charging indicator lights will flash while the reading light is charging and will turn solid when it is fully charged.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles: glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that glory.

Focus: Our team at Glocusent is focused on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; Focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
