Words from the Product Designer

Hi Friends,

This is Mason from Glocusent, and it's wonderful to connect with you again. Thank you for your continued support and valuable feedback. I'm excited to introduce our latest innovation, the **Glocusent Upgraded Music Stand Light**. This upgraded version includes several enhancements:

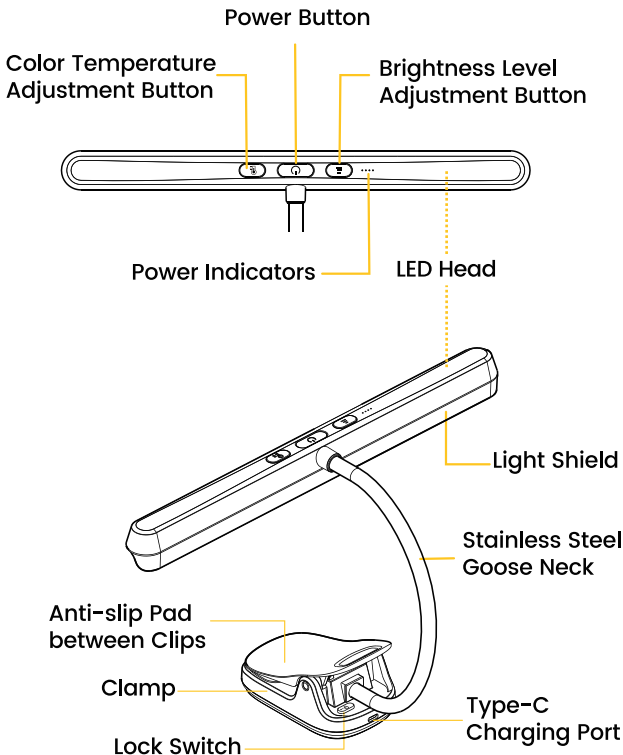

1. **Shielded Light Design:** Prevents light from glaring into the eyes of performers or the audience, ensuring a comfortable experience for everyone.
2. **Wider Illumination Area:** Covers up to four pages of sheet music, approximately 88 cm wide.
3. **Brighter Lighting:** Features 81 advanced LED beads, providing increased brightness beyond the A16 model.
4. **Longer Light Bar:** Extended to illuminate the entire piano keyboard or the width of four pages of sheet music.
5. **Touch Prevention Design:** Includes a lock to prevent accidental touches, enhancing portability and convenience.

Our Glocusent Upgraded Music Stand Light features three color temperatures and five brightness levels, with stepless adjustment. Plus, it remembers your last setting for convenience.

We hope this light enhances your practice and performances. Thank you for your support.

Sincerely,

Mason

Instruction

Power

Short Press -----  On/Off

Brightness Level

Short Press to Adjust Brightness Levels

Level 1 — Level 2 — Level 3 — Level 4 — Level 5

Or long press for stepless brightness adjusting

Color Temperature

Short Press to Adjust Color Temperatures

1800k —————→ 3200k —————→ 6000k

Or long press for stepless color temperature adjusting.

Lock Feature

Securely lock the product by sliding the lock switch towards the direction indicated by the arrow to avoid unintentional activation during transport.

Precautions

- There are plastic films on the buttons for protection purposes. Please gently tear them off before first use.
- Use a provided Type-C charging cable or any third-party certified Type-C charging cable to charge the light.
- Make sure to fully charge till the charging indicator lights turn stable from flashing before first use.
- Please charge it at least once every six months to maintain the battery's lifespan.

Please avoid placing this light in an environment with extreme

- temperatures (either too hot or too cold).

Disposal: When you are ready to dispose of the product after wearing it out, please follow your local government's instructions for environmental and safety purposes.

How to Charge the Light

1. Plug the Type-C cable into the charging port, and connect it with a 5V power adapter.
2. It takes about 4-5 hours to fully charge.
3. Please fully charge the product before first use.
4. You can still charge the product when it is locked, but the power indicator will remain off. To monitor charging, first unlock the product by sliding the lock switch away from the arrow direction.

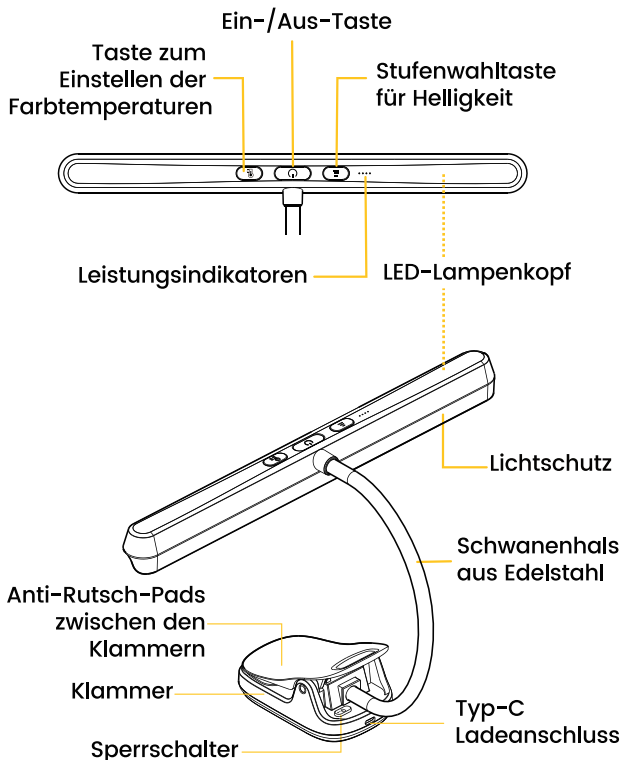

Note: The green lights will flash while the light is charging and stay steady once it's fully charged.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles; glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that **glory**.

Focus: Our team at Glocusent is **focused** on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: **Moments** are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
