Words From The product Designer

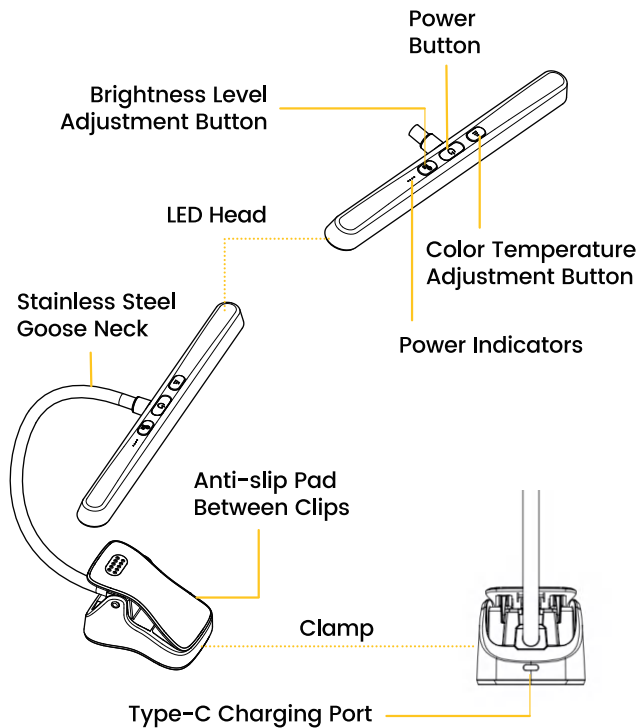

Hi Bookworms,

This music stand light is designed considerately for your performance. Compared with others, it has more advanced LED beads. These advanced 57 beads never flicker or dazzle. The light bar is longer so the light provides a wider range of lighting for your sheet music or the piano keys. When you are practicing or performing, there are no worries about the lighting.

Our light has 3 color temperatures and 5 brightness levels. Unlike other piano lights which only have fixed levels, it also has stepless adjustable color temperature and brightness. Freely select the appropriate levels according to your needs. Plus, this light would remember your setting as default: the next time you turn on it, it would work with the same setting automatically.

We genuinely hope that this music stand light can bring you joy and fun when practicing or performing, and other daily activities. Thank you for being so supportive.

Sincerely,
Mason

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. At Glocusent, we refer to three core principles; glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that **glory**.

Focus: Our team at Glocusent is **focused** on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: **Moments** are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.
